

Legacy Heating and Cooling Coronavirus (COVID-19) Announcement

Amid global concern about COVID-19, Legacy Heating and Cooling Air will continue to be here for our customers.

As people and companies all across the country take additional preparations to protect against the Coronavirus (COVID-19), we acknowledge that your Heating, AC, and Air Quality problems will likely not be taking a break. At this time, we will remain open full-time and will continue to serve our customers with the same fast response times you've come to expect from us.

Due to the increasing number of reported cases in the U.S., we are continuously monitoring the situation. We will also continue to actively assess the necessary actions we need to take in order to ensure the health and safety of our customers, employees, and their families. We hope that you will join us in taking some basic but important measures, such as social distancing and frequent hand washing, to keep communal risk low.

Our technicians have always employed the use of shoe covers when entering a home. Going forward, we will also employ the use of masks, gloves and hand sanitizers when available.

We want you to be comfortable with the safety of our service during this time. We will do our very best to accommodate your heating and air conditioning needs while at the same time, ensure your safety and the safety of our employees.

Best regards,

Pat Phillips
Owner
Legacy Heating and Cooling
